About MHRB

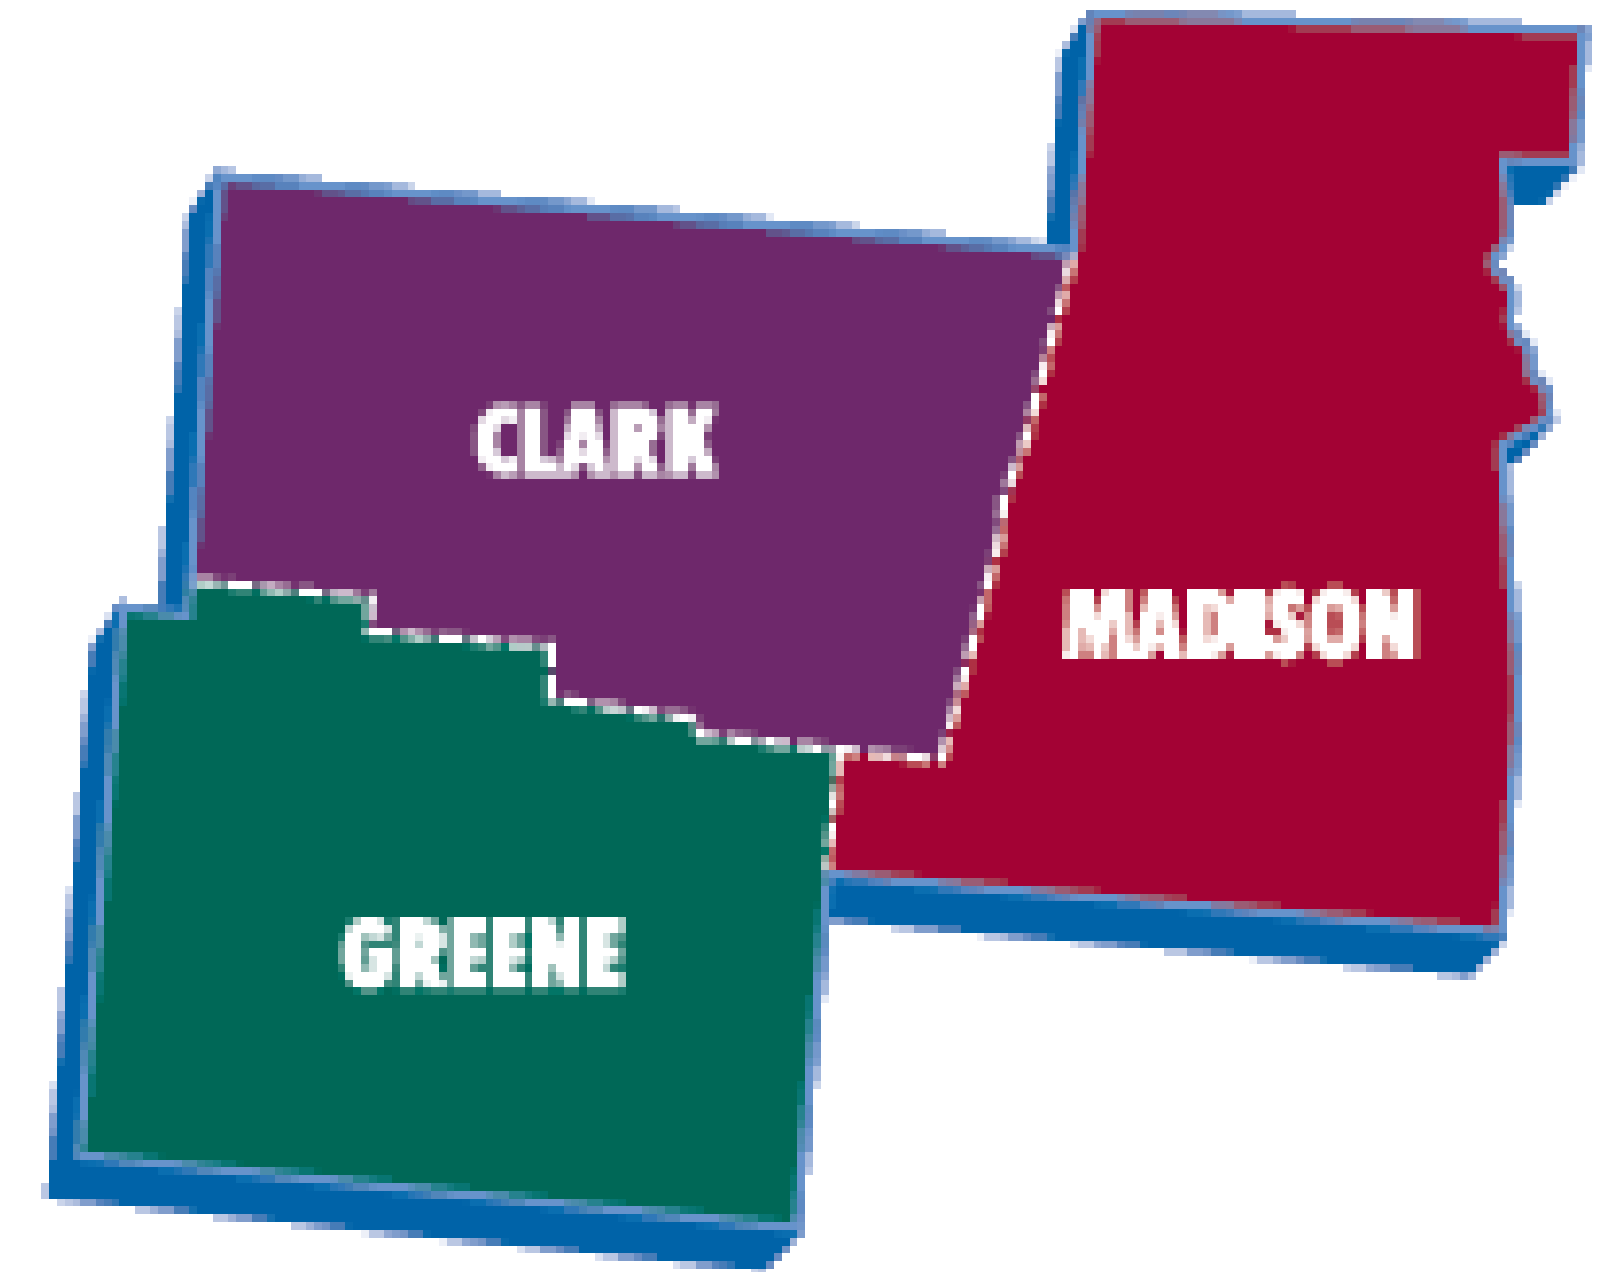

OF CLARK, GREENE & MADISON COUNTIES

- 50 Ohio behavioral health Boards
- State mandated to plan, develop, fund, manage, and evaluate services for mental health & addiction
- Publicly funded by levy dollars

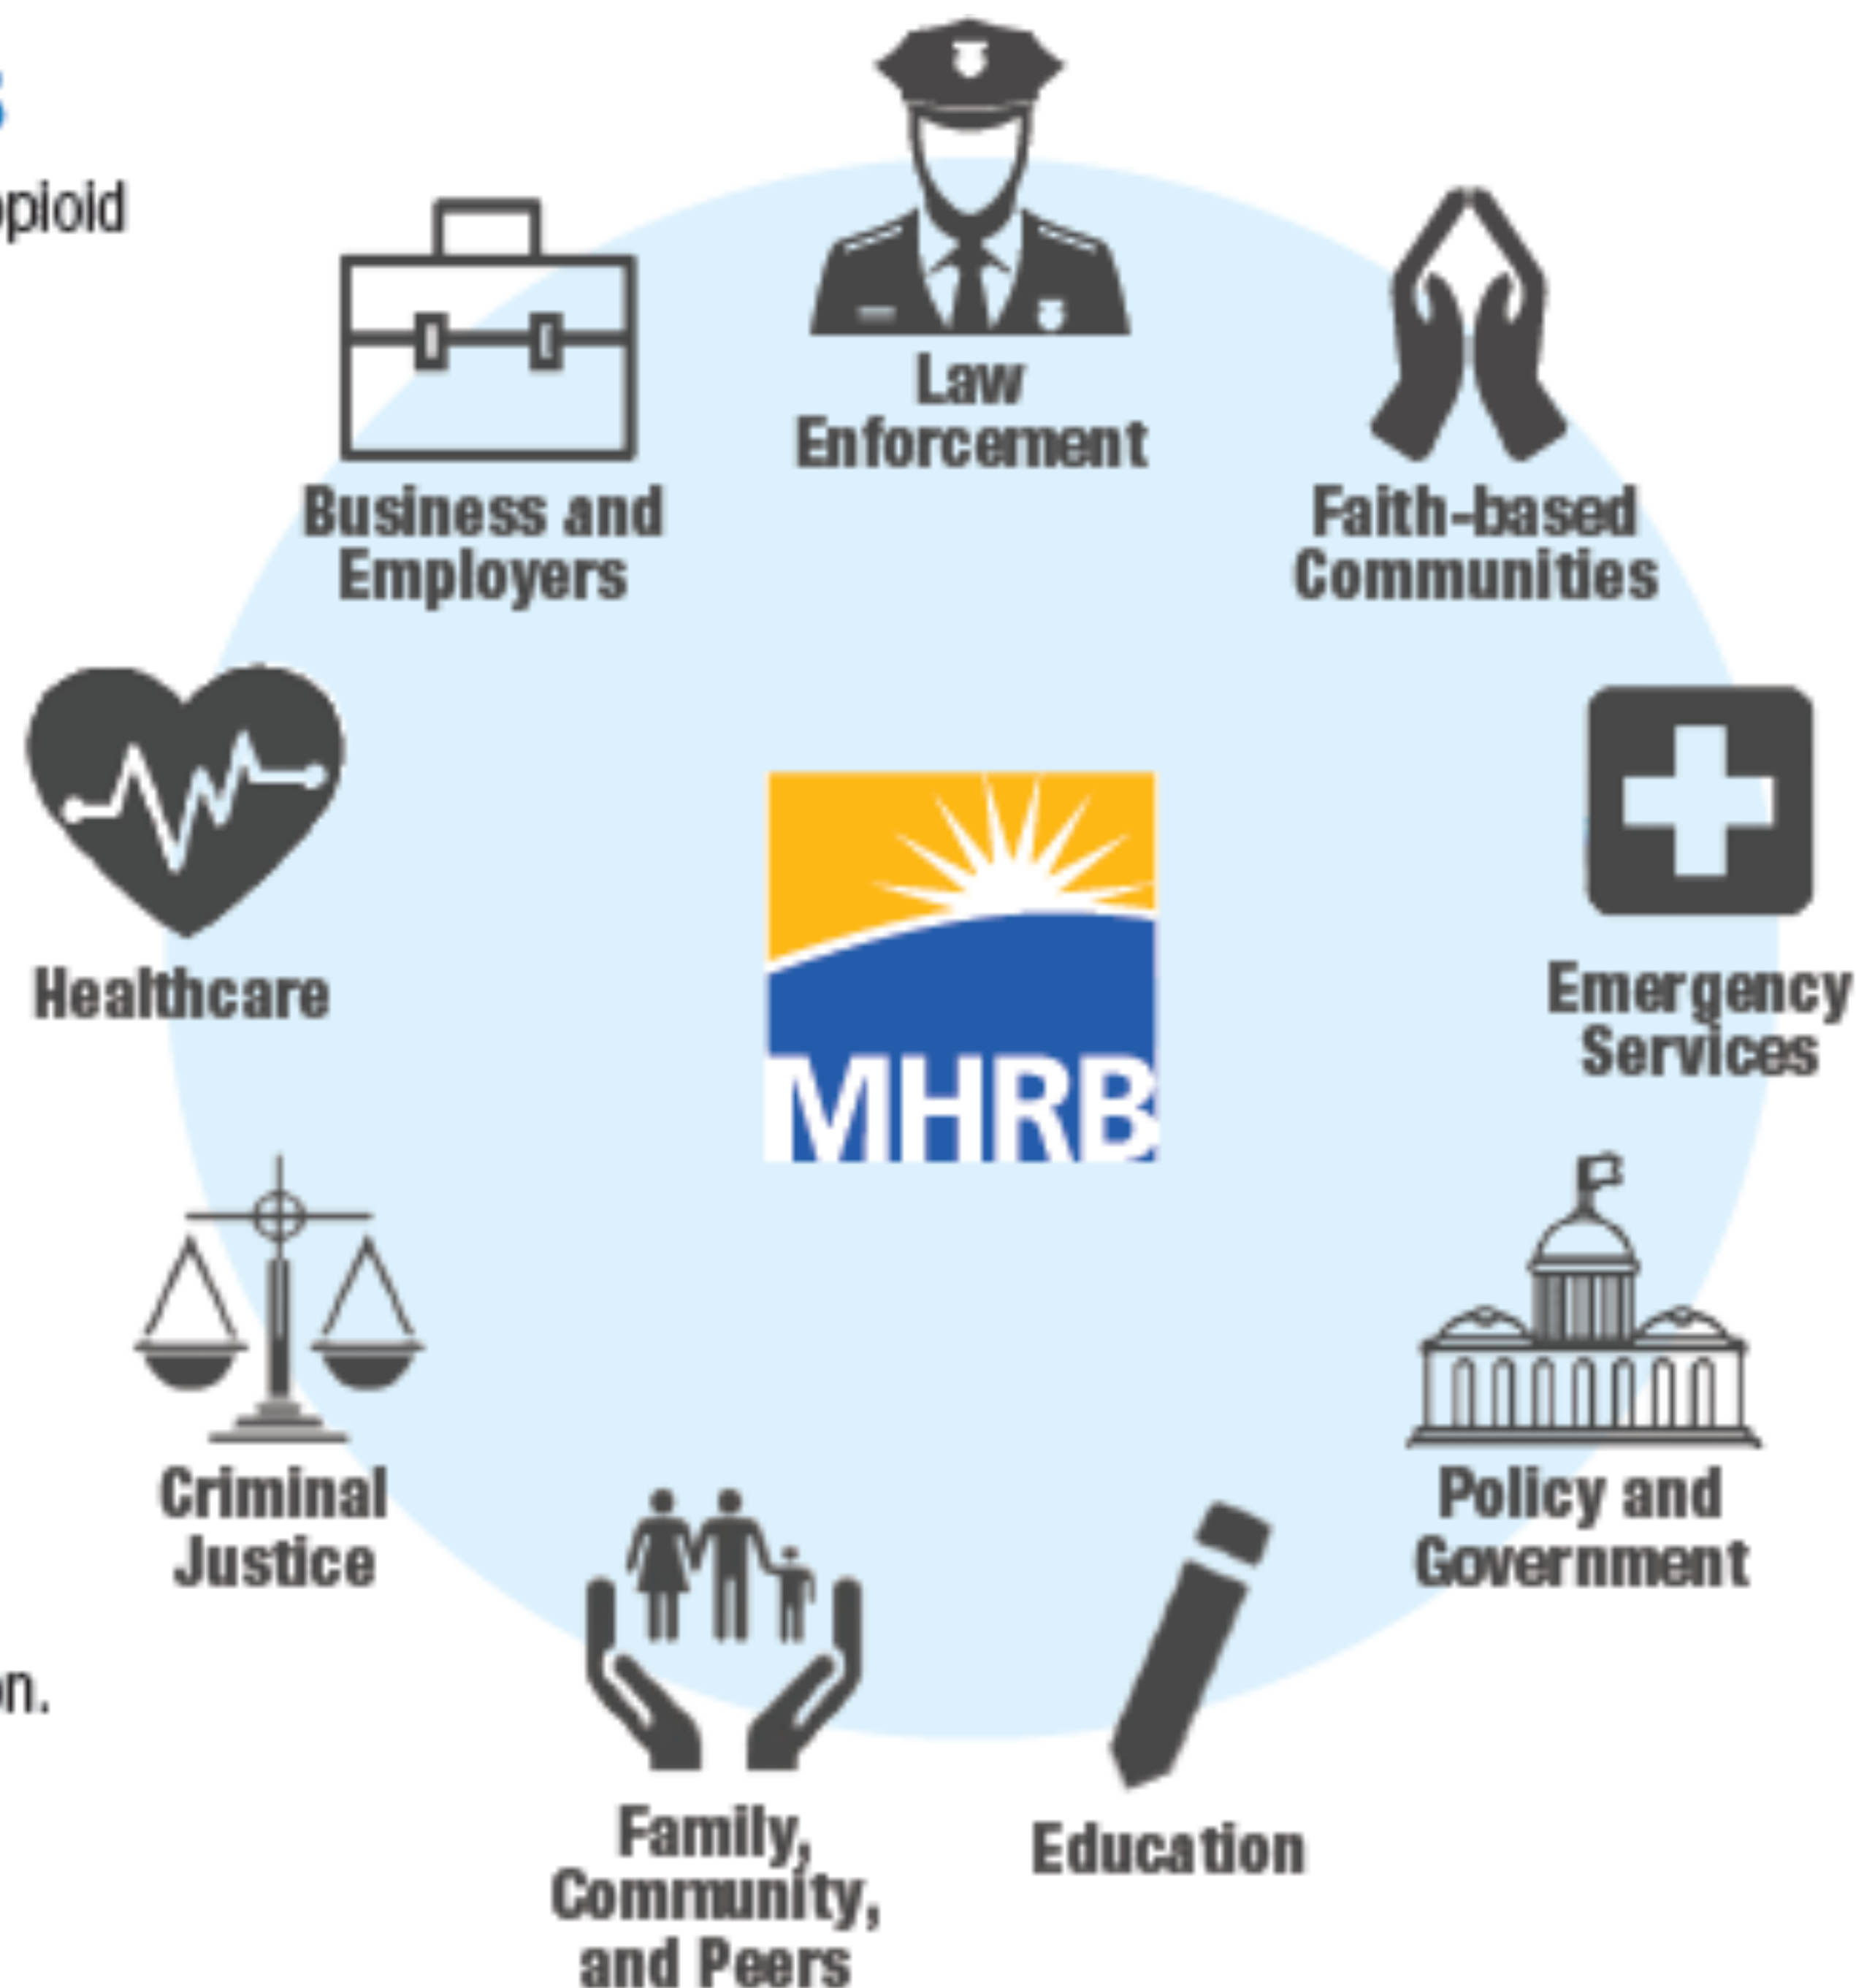

Our purpose

- Connect residents and care community
- Provide pathways to services for mental health and substance use
- Facilitate delivery of quality care with resources for prevention, treatment, and support

System Partners

Large social problems like the opioid and suicide crises cannot be solved by one system. Instead, they require the community to work together and to find complex, cross-system solutions. MHRB works with providers and community partners to find strategic, cross-system solutions to our counties' most pressing behavioral health issues. We do this by identifying a common agenda, by sharing data, by supporting mutually reinforcing activities, and by using continuous communication.

Clark County: recovery support

Housing efforts with city, care providers, & first responders through local, state, and federal funding

- ☐ Supportive housing for people with mental illness
- ☐ Recovery and safe housing for people with addiction
- ☐ Increases stability, health, and safety

Greene County: treatment

Evaluation of Greene Leaf jail-based addiction treatment for men and women

- ❑ 30% of people in Ohio's jails have mental illness, many have addiction
- ❑ Treatment can improve outcomes
- ❑ Helps inform plans for new jail & services

Madison County: prevention

Jonathan Alder school-based project

- ❑ Youth deaths by suicide prompted action
- ❑ OSU consultant, comprehensive approach
- ❑ Prevention education, treatment, support
